DETAILED ACTION

Response to Amendment

Applicant's arguments filed 9/17/03 have been fully considered but they are not persuasive.

I. Rejection of claims 23-30,32,33 under 35 USC 103(a) over Davidson (US '182) and Moriie (JP '062) and Rejection of claims 23,32 under 35 USC 103(a) over Davidson (US '182) and Matsuo (JP '171) will be maintained for reasons on record and reasons as follows.

Applicant argues that Davidson's composition comprises fipronil as an insecticide and attractant; whereas, instant invention does not disclose fipronil as an attractant. Examiner argues that fipronil whether used as an attractant or insecticide has a specific chemical structure that would possess the same chemical and physical properties whether used by Davidson or the present inventor.

Applicant argues that Davidson, Moriie and Matsuo each teach insecticide compositions comprising a single active. Applicant argues that neither reference suggests a composition comprising two or more insecticides. Therefore, Applicant argues that there exist no motivation to combine references. Examiner argues that there exist ample motivation to combine the references to arrive at instant composition comprising the two active ingredients of the instant claims. One would have been expected to do this because each prior art reference teach insecticide compositions.

Art Unit: 1616

II. Claim 31 is allowable. The prior art does not teach or suggest the instant method of treating plants comprising contacting plants with a composition comprising a compound of formula A plus fipronil.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
